

1768

1767-1769

Subperiosteal abscess of the anterior wall of the **frontal sinus** associated with underlying frontal osteomyelitis.

It is named after Sir **Percivall Pott**, an English surgeon who described it in **1768**

Robert Whytt (1714- 1766) expressed grave trepidation when commenting on ventricular drainage in his Observations on Dropsy in the Brain, ¹⁾ published in 1768.

¹⁾

Whytt R: Observations on Dropsy in the Brain. Edinburgh: J. Balfour, 1768
