

# 1900

## 1899-1901

In [1881](#), Litten first described an intraretinal hemorrhage associated with [subarachnoid hemorrhage](#) in the German literature.

However, Terson's description of vitreous hemorrhage following [subarachnoid hemorrhage](#) in [1900](#) is now associated with this syndrome.

---

[Harvey Williams Cushing](#) 14-month Wanderjahr had a profound effect on his subsequent personal [career](#), which in turn ushered in the modern age of [American](#) neurosurgery. From July [1900](#) to August [1901](#), he traveled to [European](#) neurosurgical centers in [England](#), [France](#), [Switzerland](#), [Italy](#), and [Germany](#). His excursion happened at a crucial moment in his trajectory; it was built on his existing foundation of [Halstedian surgical training](#) and occurred at a time when interest in the special field of neurological surgery was emerging. The research and clinical experiences on his journey-good and bad-undoubtedly informed his fledgling neurosurgical practice.
