

1928

see [1927](#) - [1929](#)

The [pineal region](#) is a exceptional [intracranial epidermoid cyst](#). [Harvey Williams Cushing](#) was the first to report the [pineal](#) localization of the epidermoid cyst in [1928](#).

In [1928](#), Cushing and Bailey classified [cavernous malformations](#) as a solid subtype of [hemangioblastomas](#) ¹⁾.

They distinguished meningothelial, fibroblastic, and angiomatous subtypes, and to this day allocation to subtype is based solely on histological findings.

Publications

Cushing H, Bailey P (1928) Tumors arising from the blood-vessels of the brain. Charles C. Thomas, Springfield.
