

1937

see [1936](#) - [1938](#)

The first surgical treatment of an [intracranial aneurysm](#) with [wrapping](#) was made by [Norman McOmish Dott](#) in [1931](#) ¹⁾, but the first modern-era [clipping procedure](#) was performed by [Walter Edward Dandy](#) in [1937](#) ²⁾.

Bonnet, Dechaume, and Blanc were first to recognize AVM of face, retina, and brain in the year [1937](#) and Wyburn-Mason described in detail about this disease in [1943](#). In recognition of these authors, this disease is referred to as Bonnet-Dechaume-Blanc syndrome or [Wyburn-Mason syndrome](#).

Dr Pernkopf's Topographische anatomie des menschen (Topographical anatomy of man), in four volumes, was originally published in German. It had taken the author and his colleagues over twenty years to produce it, the first volume being published in [1937](#). It was translated into English in [1964](#). The [Pernkopf's atlas](#) was received with uniform acclaim in Europe and America and praised for its accuracy and the quality of its illustrations. A study compared its utility with that of Dr Frank Netter's [Atlas of human anatomy](#), first published in [1989](#), with its 7th edition out in 2018.
