

1945

[1944 - 1946](#)

In [Korea](#), prior to 1945, [neurosurgery](#) was not built up yet, and it was a part of the general surgery just like as orthopedic surgery, thoracic surgery, and plastic surgery. The surgical landscape of Korea began changing in 1945, as [United States of America](#) (U.S.) troop started being stationed in the country.
