Fisher published the relation of [cerebral vasospasm](#) to [subarachnoid hemorrhage](#) visualized by computerized tomographic scanning ¹⁾.

The [Oswestry disability index](#) was first published by Jeremy Fairbank et al. in Physiotherapy in [1980](#) ²⁾.

[Glycogen synthase kinase 3](#) is a [serine threonine protein kinase](#) that mediates the addition of phosphate molecules onto [serine](#) and [threonine amino acid](#) residues. First discovered in [1980](#) as a regulatory kinase for its namesake, Glycogen synthase, GSK-3 has since been identified as a [kinase](#) for over forty different proteins in a variety of different pathways.
