

# A2 segment of the anterior cerebral artery

[https://www.researchgate.net/profile/Antti\\_Ronkainen/publication/5399737/figure/fig1/AS:277905037905926@1443269132245/Fig-1-Illustration-demonstrating-branches-and-segments-of-ACA.png](https://www.researchgate.net/profile/Antti_Ronkainen/publication/5399737/figure/fig1/AS:277905037905926@1443269132245/Fig-1-Illustration-demonstrating-branches-and-segments-of-ACA.png)

The [anterior cerebral artery](#) ascending segment consists of A2 and A3, and its horizontal segment consists of A4 and A5.

A2 (vertical): from the [anterior communicating artery](#), extending anterior to the [lamina terminalis](#) and along the [rostrum of the corpus callosum](#), terminating either at the [genu](#) of the corpus callosum or at the origin of the [callosomarginal artery](#)

AC: [anterior clinoid process](#); ICA: [internal carotid artery](#); LT: [lamina terminalis](#); ON: [optic nerve](#); OIN: [olfactory nerve](#); SW: [sphenoid wing](#); TS: [tuberculum sellae](#); A1: [A1 segment of the Anterior Cerebral Artery](#); A2: [A2 segment of the Anterior Cerebral Artery](#); M1: [M1 segment of the Middle Cerebral Artery](#).
