

Advanced Biologics

<https://www.advancedbiologics.com/>

Advanced Biologics (ABC) focus is to develop innovative and clinically relevant biologic solutions across a wide degree of medical specialties. Our company is fully dedicated to improving patients' lives and the Healthcare provider's experience with our products.

The OsteoAMP family of osteoinductive/conductive products is the first line of orthobiologic offerings produced by ABC. Future development includes a shape-memory, anti-bacterial synthetic product portfolio and ventures into other fields of regenerative medicine. The company was formed in 2009 and is headquartered in southern California.
