

## Reversal Strategies

| Anticoagulant        | Reversal Agent                      | Notes                                 |
|----------------------|-------------------------------------|---------------------------------------|
| Warfarin             | Vitamin K + PCC                     | INR goal < 1.5                        |
| Dabigatran           | Idarucizumab (Praxbind)             | Also consider dialysis if unavailable |
| Rivaroxaban/Apixaban | 4F-PCC (e.g., Beriplex) ± Andexanet | Limited availability of andexanet     |
| Heparin (UFH)        | Protamine sulfate                   | LMWH only partially reversible        |
