Asian Journal of Neurosurgery

A publication of the Asian Congress of Neurosurgery, is a peer-reviewed online journal with Quarterly print on demand compilation of issues published. The journal's full text is available online at http://www.asianjns.org.

The journal allows free access (Open Access) to its contents and permits authors to self-archive final accepted version of the articles on any OAI-compliant institutional / subject-based repository. The journal does not charge for submission, processing or publication of manuscripts and even for color reproduction of photographs.

Abstracting and Indexing Information

The journal is registered with the following abstracting partners: Baidu Scholar, CNKI (China National Knowledge Infrastructure), EBSCO Publishing's Electronic Databases, Exlibris – Primo Central, Google Scholar, Hinari, Infotrieve, Journal Guide, National Science Library, OpenJGate, ProQuest, TdNet

The journal is indexed with, or included in, the following: Index Copernicus, PubMed Central

Journal Ethics

Wolters Kluwer and Journal/Association are committed to meeting and upholding standards of ethical behavior at all stages of the publication process. We follow closely the industry associations, such as the Committee on Publication Ethics (COPE), International Committee of Medical Journal Editors (ICMJE) and World Association of Medical Editors (WAME), that set standards and provide guidelines for best practices in order to meet these requirements. For a summary of our specific policies regarding duplicate publication, conflicts of interest, patient consent, etc., please visit www.Medknow.com/EthicalGuidelines.asp

Open Access Publication and Creative Commons Licensing

This is an open access journal, and articles are distributed under the terms of the Creative Commons Attribution-NonCommercial-ShareAlike 4.0 License, which allows others to remix, tweak, and build upon the work non-commercially, as long as appropriate credit is given and the new creations are licensed under the identical terms.

Digital Archiving

Wolters Kluwer Medknow provides for long-term digital preservation through two primary partnerships, Portico and CLOCKSS.

Portico is a leading digital preservation service worldwide. The content is preserved as an archival version and is not publically accessible via Portico, but is provided when required under specific conditions, such as discontinuation of the collection or catastrophic failure of the website.

CLOCKSS will enable any library to maintain their own archive of content from Wolters Kluwer Medknow and other publishers, with minimal technical effort and using cheaply available hardware.

Ahead of Print policy

Articles published online under the Ahead of Print model are considered published and can be cited and quoted using the DOI as the reference source. Wolters Kluwer Medknow has a policy that changes will not be made after publication of an article without following accepted procedures for making

corrections to the scientific record.

Scope of the journal We intend to encourage and assist neurosurgeons in under-developed countries especially those from Asia to publish their experience after peer-reviewing and receiving constructive feedback from our reviewers. Meanwhile, in each issue of the journal there are publications from developed (American and European) countries in the best interest of our readers. With this dual policy, we aim to bring the work of Asian neurosurgeons to the international attention while keeping an acceptable level of quality.

The journal publishes on different topics of neurosurgery including but not limited to neuro-oncology, neuro-pathology, surgical neuro-anatomy, neurovascular surgery, skull base surgery, functional neurosurgery, neuro-critical care, spinal cord and peripheral nerve diseases, neuro-traumatology, neuro-interventional radiology, neuro radiotherapy, pediatric neurosurgery, and epilepsy surgery. We publish various formats of articles such as original paper, case report, review, and letter to the editor to expose our readers to a great wealth of neurosurgical sciences. Original investigations with clinical interest and implications are given preference.

Medknow, part of Wolters Kluwer Health, is one of the largest open access publishers worldwide with more than 300+ medical journals in its portfolio. Students, researchers, clinicians and other healthcare professionals worldwide access Medknow journals to help them fuel new discoveries and improve patient care.

Founded in 1997, Medknow is a well-respected medical publisher that fully supports many of the popular open access models through its peer-review management system. Medknow pioneers in the 'fee-less-free' model and provides immediate free access to the electronic editions of the journals without charging the author or author's institution for submission, processing or publication of the articles. Medknow's open access policy has resulted in more than a half a million article downloads monthly for all of its journals.

Wolters Kluwer Health (Philadelphia, PA) is a leading global provider of information, business intelligence and point-of-care solutions for the healthcare industry.
