

BRAF mutation

BRAF mutation

Certain other inherited BRAF mutations cause birth defects.

BRAF V600E is a subset of the BRAF mutation

Drugs that treat cancers driven by BRAF have been developed. Two of these drugs, **vemurafenib** and **dabrafenib** are approved by FDA for the treatment of late-stage **melanoma**. Vemurafenib was the first drug to come out of fragment-based drug discovery.
