Structure at the margin of the [cerebellum](#) and [pons](#).

Contents

- 1- [Facial Nerve](#). (CN VII)
- 2- [Vestibulocochlear nerve](#) (CN VIII)
- 3- [Flocculus](#) of the cerebellum
- 4- lateral recess of the [fourth ventricle](#)

It is where [vestibular schwannomas](#) are usually found.

There are great variation in anatomical location and involvement of neurovascular structures in the CPA. With this knowledge, they present certain technical lessons that may be useful in preserving nerve function during surgery and, in doing so, hope to provide neurosurgeons and neurotologists with valuable information that may help to achieve optimum outcomes in patients ¹⁾
