The Charité – Universitätsmedizin [Berlin](#) is Europe's largest university clinic, affiliated with Humboldt University and Freie University Berlin.

With numerous Collaborative Research Centers (CRC) of the Deutsche Forschungsgemeinschaft it is one of Germany's most research-intensive medical institutions. From 2012 to 2019, it was ranked by Focus as the best of over 1000 hospitals in Germany.

US Newsweek ranked the Charité as fifth best hospital in the world and best in Europe (2019). More than half of all German Nobel Prize winners in Physiology or Medicine, including Emil von Behring, Robert Koch and Paul Ehrlich, worked at the Charité.
