

Committee on Publication Ethics (COPE)

<https://publicationethics.org/about/our-organisation>

COPE is committed to educate and support [editors](#), [publishers](#) and those involved in [publication ethics](#) with the aim of moving the culture of publishing towards one where ethical practices becomes a normal part of the publishing culture.

Academic research involves many coordinated steps and processes – appropriate study design, study execution, data collection, data analysis, and finally publication. While going through these steps and culminating in a publication can be an exhilarating experience, one should be aware of ethical code of conduct that binds researchers at every stage. The [Committee on Publication Ethics \(COPE\)](#) is an international forum for editors and publishers of peer-reviewed journals that provide the “code of conduct” and “best practice guidelines” that define publication ethics and advises editors on how to handle cases of research and publication misconduct
