

Craniosynostosis Classification

It may occur in isolation, but may also be syndromic or secondary.

Craniosynostosis can occur as an isolated event resulting in nonsyndromic craniosynostosis, or it can occur in conjunction with other anomalies in well-defined patterns that make up clinically recognized syndromes.

see [Syndromic craniosynostosis](#)

see [Nonsyndromic craniosynostosis](#).

Single-suture craniosynostosis
