

Disruptive Technology

Disruptive technology is an innovation that significantly alters the way that consumers, industries, or businesses operate. A disruptive technology sweeps away the systems or habits it replaces because it has attributes that are recognizably superior.

Recent disruptive technology examples include e-commerce, online news sites, ride-sharing apps, and GPS systems.

In their own times, the automobile, electricity service, and television were disruptive technologies.

Chou D. Commentary: Disruptive Technology in Spine Surgery and Education: Virtual and Augmented Reality. Oper Neurosurg (Hagerstown). 2021 Jun 16:opab167. doi: 10.1093/ons/opab167. Epub ahead of print. PMID: 34133744.
