

# Document

A document is a form, or written piece that trains a line of thought or as in history, a significant event.

---

A **research paper** is a written **document** that presents the findings of a **systematic investigation** or **study** on a particular **topic**.

---

A **discharge report** in neurosurgery is a **comprehensive document** provided to a patient upon their release from the hospital after a **neurosurgical procedure**. This **report** serves as a summary of the patient's **hospital stay**, surgical treatment, and post-operative care instructions. It is a crucial communication tool between the healthcare **team** and the patient (or the patient's caregivers), as well as any other healthcare **providers** involved in the patient's ongoing care.
