

Duke University Medical Center

<https://neurosurgery.duke.edu/>

Department of Neurosurgery, [Duke University Hospital](#), DUMC Box 3807, Durham, NC 27710, United States.

[Duke University Medical Center](#) (commonly referred to as [Duke University Hospital](#)) is a 938-acute care bed academic [tertiary care](#) facility located in [Durham, North Carolina](#). Since its establishment in [1930](#), the hospital has grown from a small regional hospital to a world-renowned academic medical center. Duke University Hospital is the flagship teaching hospital for the Duke University Health System, a network of physicians and hospitals serving Durham County and Wake County, North Carolina, and surrounding areas, as well as one of three Level I referral centers for the Research Triangle of North Carolina (the other two are UNC Hospitals in nearby Chapel Hill and WakeMed Raleigh in Raleigh).

The Division of Neurosurgery at Duke University Hospital — a Blue Distinction Center for Spinal Surgery and a top 50 hospital in both adult and pediatric neurosurgery, according to U.S. News & World Report — has 13 active staff neurosurgeons. Duke has several special clinical neurosurgery programs and has performed some of the most extensive studies in the country on brain and spinal cancers. Duke's Brain Tumor Center is one of the largest such centers in the field, and in 2012, the center received a \$2.5 million private fund to research glioblastoma, the most common type of malignant brain tumor.
