

## DURAFORM® Dural Graft Implant Division: Codman Neuro Category: Neuro Closure

DURAFORM® Dural Graft Implant is a collagen- based biocompatible dural substitute that exhibits tensile strength and wet handling capabilities.

**Indications** The DURAFORM® Dural Graft Implant is intended for use in procedures where the repair or substitution of the patient's dura mater is needed.

**Contraindications** The DURAFORM Dural Graft Implant is contraindicated in patients with known sensitivity to bovine-derived materials. Do not use or repair neural tube defects or anterior spinal surgery with dural resection.

Use with caution in infected areas.

Codman does not recommend use to cover: • Large defects at the skull base following surgery • Dural defects involving mastoid cells
