

DuraGen

DuraGen is a medical [product](#) used in neurosurgery, specifically as a [dural graft](#) substitute. The dura mater is the outermost layer of the meninges that covers the brain and spinal cord. DuraGen is a resorbable [collagen](#) matrix designed to repair defects in the dura mater, providing a barrier to contain cerebrospinal fluid and support the healing of the tissue. Its main advantages are ease of use, biocompatibility, and the ability to integrate with natural tissue.

DuraGen Plus® Dural Regeneration Matrix

Suturable DuraGen™ Dural Regeneration Matrix

DuraGen XS™ Dural Regeneration Matrix
