

Endoscopic

Endoscopic refers to a [procedure](#) or [technique](#) that involves the use of an endoscope—a flexible or rigid tube with a camera and light source—to visualize and sometimes treat internal organs or cavities without making large incisions.

□ Definition (General)

Endoscopic: About the use of an endoscope for visual examination, diagnosis, or treatment of internal organs or structures, usually via natural orifices (e.g., mouth, nose, anus) or small skin incisions.

see [Neuroendoscopy](#).
