

Fascia

Fascia (/ˈfæʃə/, /ˈfæʃiə/; plural fasciae /ˈfæʃi.i/; adjective fascial; from Latin: “band”) refers to a band or sheet of connective tissue, primarily collagen, beneath the skin that attaches, stabilizes, encloses, and separates muscles and other internal organs.

Fascia is classified by layer, as superficial fascia, deep fascia, and visceral or parietal fascia, or by their function and anatomical location.
