

Many feel that the [generational differences](#) encountered with [Millennials](#) trainees are novel; the reality is that prior [generations](#) have always bemoaned generational differences. This is not a new problem; some of the same things may even have been said about us during our own training! There are a variety of [myths](#) and [misconceptions](#) about the Millennial generation (also known as Generation Y). Lourenco et al., review some of the differences frequently encountered as we educate and work alongside our Millennial colleagues, dispelling some of the myths and misconceptions. With increased understanding of this talented group of individuals, they hope to be more effective teachers and have more successful professional relationships <sup>1)</sup>.
