

# Inion

<https://www.inion.com/>

Inion Oy is a medical [devices company](#) focused on the development and commercialisation of innovative [biodegradable](#) and [bioactive implants](#) for Speciality Orthopaedic, Craniomaxillofacial, Spinal and Dental applications. By targeting key strategic markets in the USA and select territories in the rest of the world, Inion has built a comprehensive product portfolio sold through a dedicated network of specialist distributors.

Inion's products include biodegradable [plates](#), [screws](#), [pins](#) and membranes, which are used to enhance the healing of bone or soft tissue injuries, such as those caused by trauma or by reconstructive surgery. Inion's core expertise is in the design and manufacture of implants from its proprietary Inion® family of biomaterials, which enables the Company to develop medical implants with properties tailored for specific surgical applications, in terms of strength, flexibility and rate of degradation.

Incorporated in [2000](#), Inion has offices in [Finland](#) and in the [USA](#). The main office with R&D and manufacturing facilities is situated in [Tampere](#), Finland.

## Products

Inion CPS® Fixation System
