

# International Initiative for Traumatic Brain Injury Research

<https://intbir.nih.gov/>

InTBIR is a collaborative effort of the European Commission (EC), the Canadian Institutes of Health Research (CIHR) and the National Institutes of Health (NIH). It was set up in October 2011 to advance clinical traumatic brain injury (TBI) research, treatment and care.

CENTER-TBI is a large European project that aims to improve the care for patients with Traumatic Brain Injury (TBI).

It forms part of the larger global initiative InTBIR: International Initiative for Traumatic Brain Injury Research with projects currently ongoing in Europe, the US and Canada.
