

Intracranial Tumor Classification

World Health Organization Classification of Tumors of the Central Nervous System

[World Health Organization Classification of Tumors of the Central Nervous System.](#)

Supratentorial tumor

[Supratentorial tumor.](#)

Infratentorial tumor

[Infratentorial tumor.](#)

Adult Intracranial Tumor

[Adult Intracranial Tumor.](#)

Pediatric intracranial tumor

see [Pediatric intracranial tumor](#)

Approximately 20% of [pediatric intracranial tumors](#) arise from the [thalamus](#) or [brainstem](#), with an incidence rate of 5% and 15%, respectively.

Excluding autopsy data, [meningiomas](#) comprise approximately 22% of primary [intracranial tumors](#).

[Olfactory groove meningiomas](#) can grow insidiously large and present as one of the largest intracranial tumors.
