

Journal of Neurotrauma

<http://www.liebertpub.com/overview/journal-of-neurotrauma/39/>

Journal of Neurotrauma is the flagship, [peer-reviewed publication](#) for reporting on the latest advances in both the clinical and laboratory investigation of [traumatic brain injury](#) and [spinal cord injury](#). The [Journal](#) focuses on the basic pathobiology of injury to the central nervous system while considering preclinical and [clinical trials](#) targeted at improving both the early management and long-term care and recovery of traumatically injured patients. This is the essential journal publishing cutting-edge basic and [translational research](#) in traumatically injured human and animal studies, with emphasis on neurodegenerative disease research linked to CNS [trauma](#)
