

KLS Martin Group

KLS Martin Group is a globally recognized leader in medical technology, particularly known for its innovative solutions in **surgical instruments**, **cranio-maxillofacial surgery**, and **implant systems**. Founded in 1896, this family-owned company is headquartered in Tuttlingen, Germany, often referred to as the “World Center of Medical Technology.” KLS Martin specializes in a wide range of surgical fields, offering products such as **high-frequency surgical devices**, **surgical lasers**, **sterilization containers**, and **customized implant solutions** for complex cranio-maxillofacial reconstructions.

One of their key innovations is the **IPS® (Individual Patient Solutions)**, which allows surgeons to plan and create patient-specific implants using advanced 3D modeling. Additionally, their **microStop®** sterilization containers are designed to reduce waste by eliminating the need for consumables like filters and seals, promoting sustainability.

With a presence in over 140 countries, KLS Martin is known for its high standards of quality, durability, and focus on improving patient outcomes through cutting-edge surgical solutions[60†source][61†source][63†source].
