

# Lateral recess of the fourth ventricle

The [lateral recess](#) is a projection of the [fourth ventricle](#) which extends into the [inferior cerebellar peduncle](#) of the [brainstem](#). The lateral aperture, an opening in each extremity of the lateral recess, provides a conduit for cerebrospinal fluid to flow from the brain's ventricular system into the subarachnoid space.

Ap: [area postrema](#); icp: [inferior cerebellar peduncle](#); lr: [lateral recess](#); ms: [median sulcus](#); scp: [superior cerebellar peduncle](#); sf: [superior fovea](#); sm: [Medullary striae of fourth ventricle](#).
