

Lead

Leadership is both a research area and a practical **skill** encompassing the **ability** of an individual or **organization** to “**lead**” or guide other individuals, **teams**, or entire **organizations**.

While **obstructive hydrocephalus** is a relatively common and potentially life-threatening condition, transient obstructive hydrocephalus is a rare condition in adults. **Transient obstructive hydrocephalus** has been reported to result from systemic causes such as **lead** ¹⁾.

see **Deep Brain Stimulation Lead**.
