

Medial temporal lobe lesions

May be responsible for [seizure](#)s, especially “uncal fits” ([temporal lobe seizures](#)).

1. hamartoma
2. [mesial temporal sclerosis](#) : should see [atrophy](#) of the [parenchyma](#) in this area with dilatation of the [temporal horn](#) of the [lateral ventricle](#)
3. [glioma](#): may be low grade. Look for [mass effect](#) and possibly [enhancement](#)
