

# Meetings

Annual [conferences](#), educational [courses](#) and other meetings draw a diverse [community](#) of individuals, yet also create a unique environment without the traditional guard rails. Unlike [events](#) held at one's home [institution](#), clear [rules](#) and [jurisdiction](#) have not been universally established. To promote the open exchange of ideas, as well as an environment conducive to the professional growth of all participants, the leading neurosurgical professional organizations joined forces to delineate the expectations for anyone who participates in sponsored events. The One Neurosurgery Summit Taskforce on Professionalism and [Harassment](#) developed a foundational policy that establishes common expectations for behavior and a unified roadmap for the prompt response to untoward events. We hope that publishing this policy will inspire other medical organizations to establish their own meeting and conference policies. More importantly, we wish to bring greater attention to everyone's responsibility for ensuring a safe and respectful space for education, scientific debate, and networking during organized events <sup>1)</sup>
