

Pain Neurosurgery (Neurosurgery by Example)

by Oren Sagher (Editor), Emily Levin (Editor), Julie Pilitsis (Editor)

List Price: \$99.95

[Buy](#)

Part of the Neurosurgery by Example series, this volume on [pain](#) neurosurgery presents exemplary cases in which renowned authors guide readers through the assessment and planning, decision making, surgical procedure, aftercare, and complication management of common and uncommon disorders. The cases explore the spectrum of clinical diversity and complexity within pain neurosurgery, including [trigeminal neuralgia](#), [postherpetic neuralgia](#), [occipital neuralgia](#), [percutaneous cordotomy](#) for cancer-associated pain, chronic lumbar [radiculopathy](#), and more.

Each chapter also contains 'pivot points' that illuminate changes required to manage patients in alternate or atypical situations, and pearls for accurate diagnosis, successful treatment, and effective [complication](#) management. Containing a focused review of medical evidence and expected outcomes, Pain Neurosurgery is appropriate for [neurosurgeons](#) who wish to learn more about a subspecialty, and those preparing for the [American Board of Neurological Surgery oral examination](#).
