Samarys® RF – Pre-filled PEEK Anterior Anatomical Cervical Cage

The Samarys™ RF cage is a complete pre-assembled implant that combines the benefits of the PEEK Anatomical Cervical Cage Samarys™ with a 3D bone substitute specially designed for this cage. Thanks to its integrated inserter with A/P Stop, the Samarys™ RF allows for a rapid and easy insertion of the system.

Indications

Stabilization after curettage in the event of cervical disc herniation

Compressive osteophytosis affecting the nerve roots and/or the spinal cord

Degenerative intervertebral instability

The Samarys™ RF must be implanted with the Samarys™ instrumentation.
