

Spinal Needle

Specially designed to administer lumbar/subarachnoid anaesthesia

The needle has a sharp bevel design for low puncture force which ensures minimal puncture trauma

The transparent hub provides rapid detection of CSF flashback for confirming accurate placement

The snugly fit stylet into the respective needle facilitates no tissue coring

The fine gauze needle design greatly reduces the risk of PDPH (Post Dura Puncture Headache)

The needles have colour coded stylet which enables rapid size identification

It is sterile, individually packed in peelable pouch

These needles are available in the sizes of 18G, 20G, 21G, 22G, 23G, 24G, 25G, 26G, 27G
