

# Stryker

**Stryker Corporation** is a leading global medical technology company that provides a wide range of products and services in the fields of **orthopedics**, **neurosurgery**, **spine surgery**, **surgical instruments**, and **medical devices**. Founded in 1941 by Dr. Homer Stryker, an orthopedic surgeon, the company is known for its innovations in improving patient care through advanced technology.

Key areas where Stryker operates:

1. **Orthopedics:** Stryker is well-known for its hip and knee replacement systems, as well as trauma and extremities products.
2. **Medical and Surgical Equipment:** The company offers a wide range of surgical instruments and medical equipment, including power tools for surgeries, sterilization equipment, and patient transport systems.
3. **Neurosurgical and Spine Products:** Stryker's **neurotechnology** and **spinal products** include implants, surgical navigation systems, and minimally invasive surgical equipment.
4. **Endoscopy and Robotics:** Through its acquisition of companies like **MAKO Surgical**, Stryker has developed robotic systems for joint replacement surgeries, offering more precision and better outcomes for patients.
5. **Medical Devices:** They also produce a variety of medical devices, such as defibrillators, patient monitoring systems, and instruments used in critical care settings.

Stryker is recognized for its commitment to **innovation** and **clinical outcomes**, with a strong focus on providing value to healthcare systems globally.
